“ My sincere condolences to Gustavo, Carlos, and Elena. Ann and I became friends in elementary school and continued our friendship throughout our adult life. So many memories flood my mind of time spent with my “sis”. She lived such an adventurous well-traveled life and no doubt touched so many lives of the young people she taught. I remember many times witnessing the quiet happy smile of pride and look of love she would get on her face whenever she talked about Gustavo and their two beautiful children. Like many, I wish I was able to have more visits with her over the past years but she was always in my thoughts and heart. Rest well my dear friend.

“ *Ann and I met at WMU. We lived down the hall from each other in Henry Hall. Our friendship started there and evolved over time to include many road trips. These also evolved over time as we acquired a little more income. My memories of Ann include so many things. I have missed our trips these last 11 years. We did squeak out one last trip with the kiddos to Laura Ingalls Wilder country before her heart issues began. Rest in peace dear friend. My sympathy and Terry's as well to her whole family. Hugs to Gustavo, Carlos and Elena. --Marietta Ehlers Johnson*

“ Ann and I were school friends and kept in touch during her travels and marriage. She was an interesting, adventurous, and extremely smart person . I have so many memories of fun times with her and shared her saddest times as well. When she traveled out of the country I would send her the Free Press at her request! We loved The Monkees tv show and would call each other after the episode to talk about it. We enjoyed riding our bikes around Centerline, and riding past her high school crushes house all the while laughing and carrying on. She had a great laugh. The exciting high school dances, our love of motown music. My bridesmaid. Such sadness to loose her. Rest In Peace Ann reunited with so many family members now. Gustavo and children, I am so sorry for your loss. With deepest sympathy , Mary Jo Belter (Cote’)
