“ I use to love to go to her house and play with her pet monkey along with all the other animals she had. She would let me walk by myself to go get milk and my mom never let me leave her side. I use to help her plant her plants that she loved so much all around her house. I just wish I could have spent more time with her. I'll miss you dearly.

“ When I first met this woman she scared me to death, but then I got to know and realize what a great person she was. She always done as much as she could for anybody. And even though I didn't know her as well as most of you. She'll always be a part of my life. Because she sure didn't care to tell you how she felt. And that's what I loved about her. We'll miss you grandma Betty...
