“ *Very saddened by this she was behind me on last weeks ride to Red Knapps in Oxford. When she left she was in good spirits and said what a beautiful night for a ride she enjoyed the ride out there. Again Very Saddened.*

“ *I am very sorry to hear about the passing of your mother. Georgia was always so very kind to me when I first started teaching at Lamphere High School. She always made time to stop and talk and was also very proud of her children. My thoughts are with you and your families. Mrs. Uhlmann*

“ As a fellow biker, it is with a Sad Heart that I send condolences to the family. Many of us take on the roads knowing that our hobby is getting more dangerous with all the distractions of today's roads and technology. I hope that the family is able to make peace with the loss of Georgia and reminisce of all the memories made.

“ David, I am so sorry for your loss, was looking forward to meeting Georgia in a couple of weeks when I get back to Michigan. Everyone had such great words about how nice she was and were so happy for you. So sad the circumstances but, you were together doing what you both loved best. You will be in my prayers and please extend my condolences to her family.

*Love and prayers,
Kathy and Dan Divin*

“ Not many leave a lasting impression on me as you, Georgia. You were so soft spoken, kind, and gentle. You left us way to soon. I won't ever forget our ride to Sault Saint Marie last August. Despite the pouring rain we rode all the way, as you led. We laughed and complained about the weather, but we made it!! I will never forget you, my friend.

“ I'm at such a loss for words. My mind hasn't stopped racing since I got the news that night. We started out as neighbors 11 yrs ago, and then became family. You treated me like a daughter, and loved me as such. You were always the first one on my porch when I was sick, with some remedy. When I was living alone, you made sure you sent someone over to do my snow. You always asked if I was hungry, or needed anything. You always texted me on holidays. You always introduced me as your other daughter. We shared many private tears and moments together. I told you that I really wished that you wouldn't get another bike, but there's no debating with you once you have your mind set. You will be missed more than you'll ever know. And even though I told you that I loved you every time we would say our goodbye's, I never thought a final "I love you" would come so soon. I will always cherish you in my heart, mom. I love you.
