“ *When my daughter was four she fell. Split her chin to the bone. My brother went next door and Nelson came over. I asked him to take us to the emergency room. He said , "heck I can butterfly this and it will be less painful and heal real good". He put butterfly strips made from tape on her chin and it healed up well with barely a scar. I was always grateful to him for helping me out that day. Ride on Nelson... and again. Thank you.*
