“ Pat was one in a million, you always knew what she was thinking.
We shared so many years of our lives.
I met her in 1955 when we both moved to Kramer Homes and were neighbors.
We stayed good friends from then on.
If we didn't see each other , we were always in touch by phone.
After Ken's illness , she took over, got a job, and the family was well taken care of.
She was one of the strongest women I know, and had the biggest heart of anyone.
The last time I came down to see her, she said what a good life she had and how
blessed she was to have her children so near and how they kept her safe.
I'll miss our phone conversations and the special cards she always sent.
Rest In Peace “ Fudge- y” I hope you brought some to Ken before you ate it all 💕💕

Thank you for your kind words... it's been nice these last few days hearing from friends and family and reflecting back on memories... I still remember when my family was visiting and you let me stay up late and watch TV :)

“ *I'll miss you, Pat, you were more than a friend, you were another mom... from the moment I met you, you hugged me and said this is our Cheryl with that contagious smile and twinkle in your eye, and you had my heart. I loved that you sent me thank you cards with handwritten notes for sending you a card or for a phone call. I loved that you were so excited to get chocolates in the mail. I loved that you could beat me at any game and I adored your sharp mind and witt and humor. You were an instant friend to my mom and I felt your connection ❤️ There is none like you, my dear Pat, you were more than my friend, you were another mom. I will cherish you and our memories forever...in my heart. God speed and dance with the angels, I love you ❤️*

“ We’ve all been blessed with how long my mother has been with us... my mother deserves a lot of credit... she did not have an easy life.

My mother was the eldest of 5 siblings... growing up with 4 brothers had its advantages... she was always the first sibling in the bathtub...lol and when she wrecked my Uncle Bob’s car, which she did not have permission to drive, the other 3 brothers protected her.

When I was just a baby, I’m the youngest of 4 siblings, my father contracted encephalitis (inflammation of the brain) probably from an infected insect. This left my father handicapped and unable to work. My mother had to become the bread winner, support the family and deal with a now aggravated husband... but my mother kept us together... family was the most important thing to my mother. Even when my now aging father had to recuperate from surgery in a nursing home and could no longer walk, against the advice of others, she brought my father home and cared for him until she physically and mentally could not do so anymore...: it was through this caring time that I saw the love between my parents that was rarely seen after my father’s sickness.

To my nieces and nephews... be proof the genes that have been shared with you... you come from good stock... and I will be proud knowing that when mine and my wife Deborah’s journey is over, we will rest beside my mother and father in the now Historical Saint Clement Cemetery.

Mom... thank you for always being there, your support, strength, compassion and most of all... thank you for the family you provided and what it has grown into.

Sincerely

John and Deborah Heier
